## SUMMARY

I'm in my final year of Information Technology. Frontend development and user interface design are things that I'm passionate about. I can create responsive websites using HTML, CSS and JavaScript. I'm currently learning ReactJS and I have a basic understanding of Components, State, and Props. Now I'm seeking for a Frontend Developer Internship where I can work on projects, improve my skills, and gain more experience.

## SKILLS

### Programming languages:

HTML/CSS

JavaScript

Python, C# (basic)

### Frameworks & Libraries:

ReactJS (basic)

Django (basic)

### Database

MySQL

Microsoft SQL

### Design tools

Adobe Photoshop

Figma

### English

Basic reading comprehension.

Search for professional documents.

## EDUCATION

2018 - Now

### Ho Chi Minh City Open University

Major: Information Technology

## PROJECTS

### Shopee Store

- The product after I completed the HTML and CSS basics course. It includes the basic components such as header, product listing, footer.
- Technologies Used: HTML, CSS
- Demo: mailamdev.github.io/ShopeeStore/

### Music Player

- To build this product, I used the Javascript basics that I had studied. You can shuffle music, repeat a song, or listen to a song from the playlist.
- Technologies Used: JavaScript, HTML, CSS
- Demo: mailamdev.github.io/MusicPlayer/

### My Portfolio Website

- I built it to introduce myself, show my projects, and provide contact information.
- Technologies Used: HTML, CSS, JavaScript
- Demo: mailam.web.app
